Personal protection and chauffeur services worldwide

Highest security: There are several reasons to consider personal protection measures with chauffeur services:

- ✓ the subjective security requirements of an officer in politics, business and culture
- ✓ specific incidents, such as ones own findings or evidence of security authorities regarding a suspected surveillance or safety risk
- ✓ professional activities which may provoke the danger of blackmail or threat.

VIP-Mobile Bodyguard-Service: Protected from attacks and assaults by personal protection.

Whether VIPs, business people or private individuals: All persons who want to be protected from assault or attack can rely on our personal protection. VIP-Mobile personal protection secures your place of residence from assaults and robberies.

Our staff will comply with data protection regulations and of course treat your privacy confidentially. Whether you book us for trips abroad or for short business trips – we are sure to be there for you.
